Information for Students and Parents

Introduction

A student is expected to:

- Satisfactorily complete the mandatory curriculum requirements as outlined by NESA (NSW Education Standards Authority).
- Attend school until the final day of Year 10 as determined by the Department of Education.
- Make a serious attempt at all school based assessment tasks.

Mandatory Curriculum

The NESA curriculum requirements are listed below:

- English
- Mathematics
- Science
- Human Society and its Environment: History and Geography in Stage 4; Australian History and Australian Geography in Stage 5
- LOTE: at least one language over a 12 month period in Year 7 and/or Year 8
- Technology and Applied Science: Technology mandatory syllabus in Years 7 and 8
- Creative Arts: mandatory courses in Years 7 and 8
- PD/H/PE: mandatory integrated course in Years 7-10

NESA provides a wide range of additional (elective) courses that, if completed in accordance with Board Developed or Board Endorsed syllabuses and indicative time requirements will be credentialed.

Satisfactory completion of a course

A student will be considered to have satisfactorily completed a course if they have:

- **followed** the course developed or endorsed by NESA
- **applied** themselves with diligence and sustained effort to the set tasks and experiences provided in the course by the school
- **achieved** some or all of the course outcomes.

Excursions

Some subject rules require students to undertake compulsory field study while some tasks may well be linked to excursions and performances. In the case of an unavoidable absence from such activities, the student must negotiate alternate arrangements **prior** to the event.

Approved Leave

Students must apply in writing to the Principal for approved leave from school.

If a student knows in advance that he/she will be absent on the day a task is due, then the task should be handed to the teacher **prior** to the due date.

When the task is to be completed in class, arrangements need to be made with the Head Teacher **prior** to the date of the task.

Assessment Policy

Why do we need a school Assessment Policy?

- The school Assessment Policy is designed so that no student can be unfairly advantaged or disadvantaged by the school's system of assessment.
- Assessment at Newtown High School of the Performing Arts encourages progressive development of skills and knowledge while ensuring:
 - consistency across subjects and courses
 - fairness in marking and reporting
 - coordination of the assessment program to ease the load on students.

What are the responsibilities of the school?

The school is required to provide students with the following information;

- An Assessment Calendar, which outlines what components are to be assessed, when the assessment tasks are scheduled and the relative weighting attached to each assessment task.
- Assessment tasks will be of the same type and have the same weighting for all classes studying that course. At the completion of each task, students will receive a *mark* and *written feedback concerning areas for development*.
- Written notification of the specific nature of each calendared assessment task at least **TWO** weeks in advance. This is a more detailed explanation of the specific nature of the task.
- In exceptional circumstances the date of a task may need to be changed. In such cases Class Teachers will inform students of the new arrangements in writing at least **two weeks** in advance.
- Official Course Warning letters will be posted home to parents/carers outlining the areas of unsatisfactory completion of course requirements. (Refer to Non Completion of year 10 Course, later in this document)

What are the responsibilities of the students?

- Students must demonstrate sustained diligence and effort in each subject.
- Students must attend classes regularly and ensure their attendance does not fall below 85%.
- Students must complete all set tasks in order to achieve course outcomes.
- Students are required to participate in all lessons constructively.
- Every student has the responsibility to be familiar with the school's assessment and procedures policy handbook. Every student must also be familiar with the course information contained in the handbook.
- It is important that the student speaks with their Class Teacher or Head Teacher of the Faculty if there is any doubt about the requirements of the subject/course assessment task.
- It is the responsibility of the student to be present for, or to hand in all assessment tasks **at the required time** as specified in the booklet and the assessment calendar.
- Students must be **present** for the **whole day** in which an assessment task is scheduled. It is not acceptable for a student to attend school to fulfil the requirements of an assessment task **only** and not be present at **all** the timetabled lessons for that particular day.

How student achievement is assessed?

Students are assessed against course outcomes through a range of assessment tasks in each subject. An outcome is a description of the learning, which has taken place. Student progress in achieving course outcomes is reported twice a year. Schools are responsible for awarding each student with a grade (A, B, C, D or E) to summarise the student's achievement in any 100 or 200 hour course completed in Stage 5.

A range of tasks are used for assessment and will vary from course to course. These tasks may include;

- Tests which may take a written, practical and oral form
- Class essays, research tasks, assignments, portfolios, log books or journals
- Practical tasks, major works or performances
- Projects

Excursions and Fieldwork

Some courses require students to undertake compulsory fieldwork or compulsory excursions to achieve and assess some outcomes. In the case of unavoidable absence from such activities students must negotiate alternate arrangements and follow Illness/Misadventure procedures.

Illness/Misadventure

Consideration is given to students who suffer illness or misadventure at the time of a task or whose performance is impaired by circumstances beyond their control. The following policy will be applied at this school to ensure that no one student gains an unfair advantage over other students.

If a student is absent due to **illness/misadventure on the day of an in-school assessment task or the day an assessment task is due to be submitted:**

- the student must complete an Application for Illness and Misadventure within two days of returning to school. The form is to be collected from and returned to the Head Teacher of the course, with relevant documentation supporting their application
- the Head Teacher will assess if the student's case is valid and decide which of the following is most appropriate:
 - an extension of time
 - completion of the task

Students must be aware that each case will be assessed on its merits. Alternative arrangements of any kind will not automatically be made on request. **If the case is not deemed valid, a zero mark will be awarded.**

Hand-in Assessment Tasks

Hand-in tasks include tasks such as research essays, written reports and practical work. All assessment tasks are to be submitted on the **due date** at the **specified time**. It is the student's responsibility to ensure that these tasks are submitted on time. The tasks are to be submitted to the class teacher or the relevant faculty Head Teacher. **Students must not leave hand-in tasks on teachers' desks.** If the student has only completed part of the hand in task, this part must be submitted to the Class Teacher on the due date. Students must attend all classes on the day tasks are due. Failure to submit tasks on time, without a valid reason may result in mark of 'zero' being awarded to the student. In the case of illness or misadventure it is the student's responsibility to complete an Illness/Misadventure form and attach relevant documentation to support their application and return completed form to the relevant Head Teacher of the course.

NOTE: Technology failure or printer breakdown will not be accepted as a valid reason for late submission. 'Teching' is also not a valid excuse for missing a scheduled assessment task.

Failure to submit tasks on time without following the illness/misadventure process will result in a **zero mark**. The task must be completed to complete the outcomes of the course.

Malpractice

Malpractice is any activity undertaken by a student that allows them to gain an unfair advantage over others. It includes, but is not limited to:

- breaching published school examination rules
- being in possession of unauthorised notes
- being in possession of electronic devices during a test or examination
- using words, ideas, designs or workmanship of others without acknowledgement
- copying from another student
- presenting another person's work as their own
- paying someone to write or prepare an assessment task
- offering false documentation or explanations in support of an appeal/non-serious attempt in an exam or assessment task
- work presented which contains frivolous and/or objectionable material
- assisting another student to engage in malpractice
- behaving in a way likely to disrupt the work or concentration of other students

Students must engage in ethical practice regarding assessment tasks. Work submitted for assessment tasks must be the student's own work.

Where the teacher responsible for a task has reason to suspect malpractice, this will be brought to the attention of the Head Teacher. If both are in agreement then the student will be awarded a **zero** for the task.

Feedback on Assessment Tasks

Students will be given meaningful feedback following each assessment task:

- A mark/grade and information on the outcomes achieved as indicated by the marking criteria
- Information, which assists students to improve on their performance in future tasks

Unsatisfactory Completion of Course

Process and Support for Students

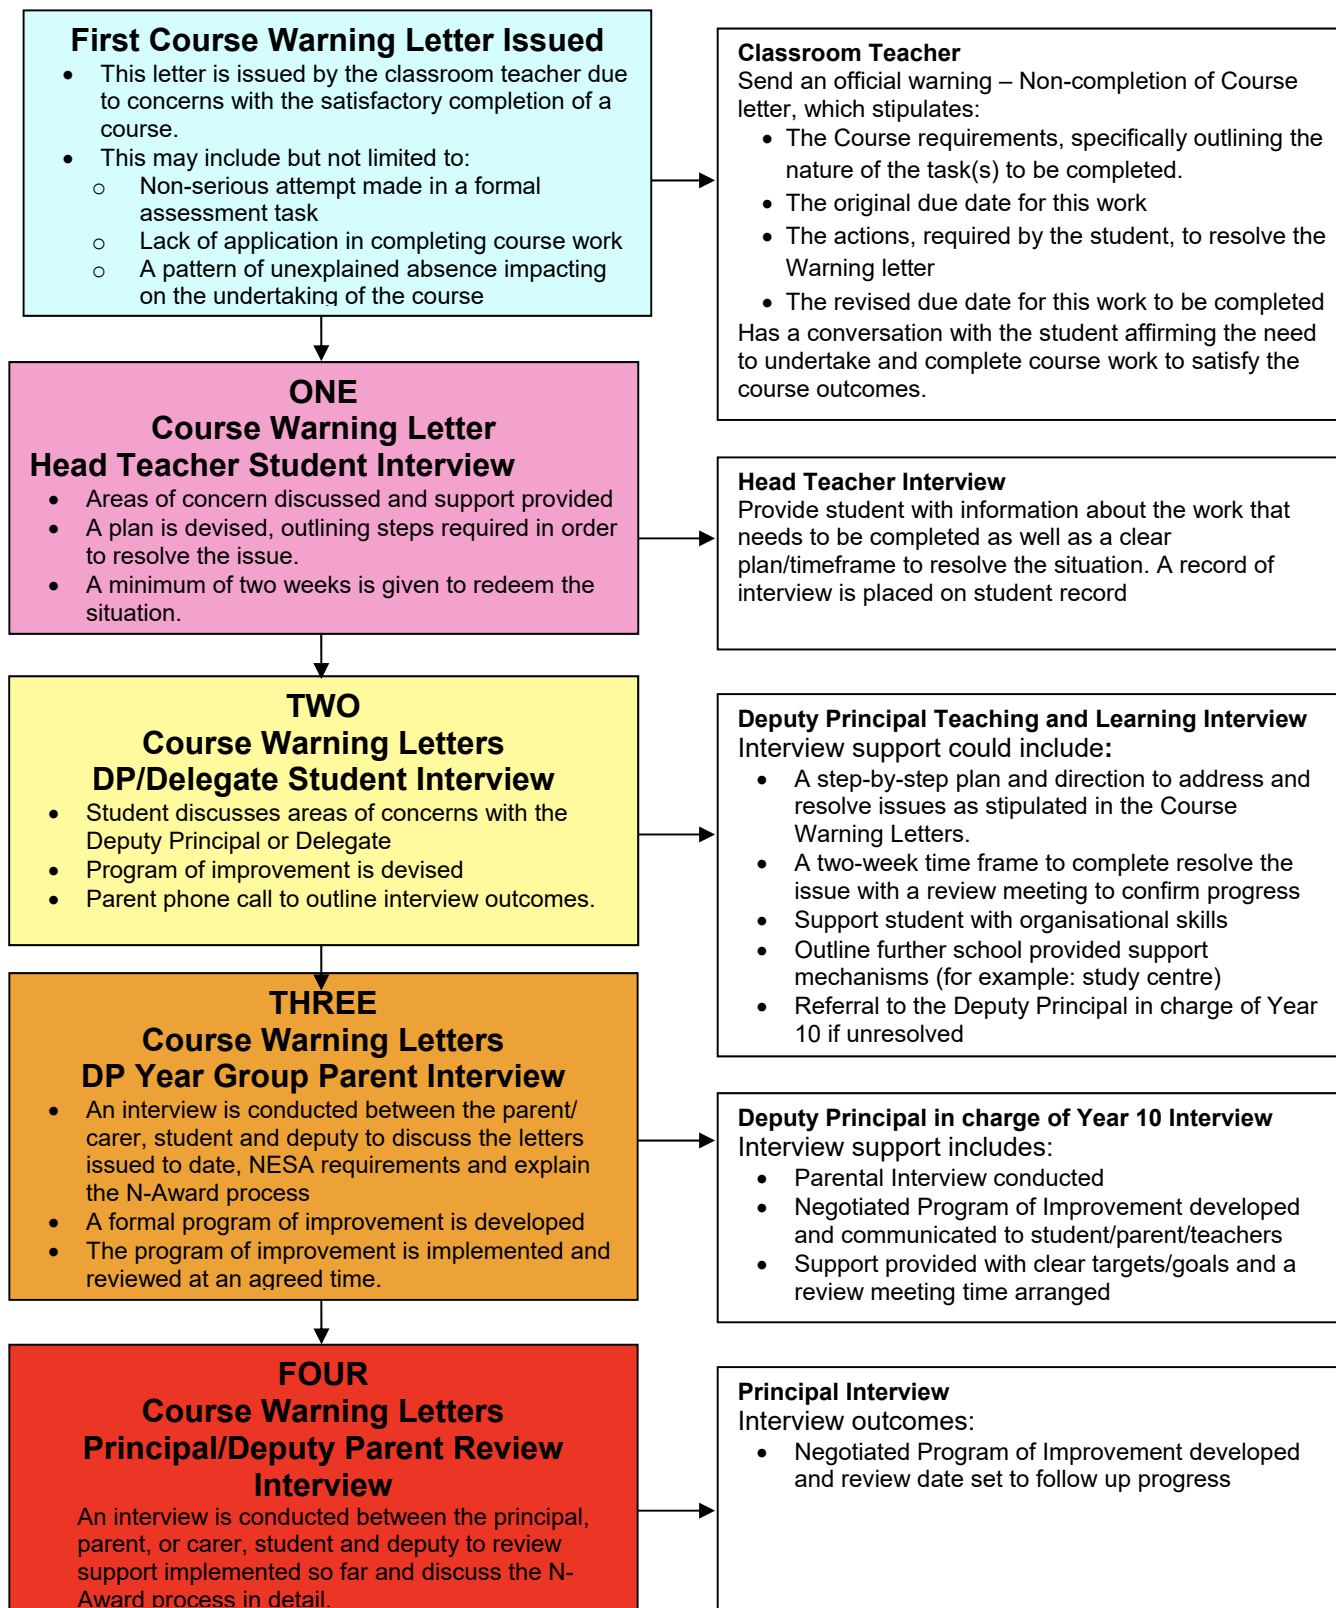

Course Completion Criteria:

The satisfactory completion of a course requires principals to have sufficient evidence that the student has:

- a) **followed** the course developed or endorsed by NESAs; and
- b) **applied** themselves with diligence and sustained effort to the set tasks and experiences provided in the course by the school; and
- c) **achieved** some or all of the course outcomes

Year 10 Geography

Task	Outcomes	Task Details	Weighting	Due Date
1	<p>GE5-2 explains processes and influences that form and transform places and environments</p> <p>GE5-3 analyses the effect of interactions and connections between people, places and environments</p> <p>GE5-5 assesses management strategies for places and environments for their sustainability</p>	<p>Topic: Environmental Change and Management</p> <p>Mandatory Fieldwork (Marine Environments)</p> <p>Knowledge and skills task</p>	<p>N/A</p> <p>50%</p>	<p>Term 3 Week 2</p> <p>Term 3 Week 9</p>
2	<p>GE5-7 acquires and processes geographical information by selecting and using appropriate and relevant geographical tools for inquiry</p> <p>GE5-8 communicates geographical information to a range of audiences using a variety of strategies</p> <p>thinks critically and creatively in evaluating efforts to improve human wellbeing in countries</p>	<p>Topic: Human Wellbeing</p> <p>Critical investigation</p>	50%	Term 4 Week 5

Year 10 History

Task	Outcomes	Task Details	Weighting	Due Date
1	<p>HT5-1 explains and assesses the historical forces and factors that shaped the modern world and Australia</p> <p>HT5-5 identifies and evaluates the usefulness of sources in the historical inquiry process</p> <p>HT5-6 uses relevant evidence from sources to support historical narratives, explanations and analyses of the modern world and Australia</p> <p>HT5-7 explains different contexts, perspectives and interpretations of the modern world and Australia</p>	<p>Australians at War WW I and WW II</p> <p>Knowledge and Source Analysis test</p>	50%	<p>Semester 1 Term 1 Week 10</p>
2	<p>HT5-3 explains and analyses the causes and effects of events and developments in the modern world and Australia</p> <p>HT5-8 selects and analyses a range of historical sources to locate information relevant to an historical inquiry</p> <p>HT5-9 applies a range of relevant historical terms and concepts when communicating an understanding of the past works collaboratively to think critically and creatively to investigate and present effects of popular culture on Australian society</p>	<p>Pop Culture – post WW II period</p> <p>Investigation and creative task</p>	50%	<p>Semester 1 Term 2 Week 5</p>

Year 10 Integrated Computing

Task	Outcomes	Task Detail	Weighting	Date Due
1	5.3.1 justifies responsible practices and ethical use of information and software technology 5.3.2 acquires and manipulates data and information in an ethical manner 5.5.3 describes and compares key roles and responsibilities of people in the field of information and software technology	Semester 1 Progressive Assessment classwork, homework, unit quizzes	20%	Ongoing
2	5.1.1 selects and justifies the application of appropriate software programs to a range of tasks 5.2.1 describes and applies problem-solving processes when creating solutions 5.2.2 designs, produces and evaluates appropriate solutions to a range of challenging problems 5.2.3 critically analyses decision-making processes in a range of information and software solutions 5.5.2 communicates ideas, processes and solutions to a targeted audience	Semester 1 Major Project 1	30%	Term 2 Week 3
3	5.1.2 selects, maintains and appropriately uses hardware for a range of tasks 5.4.1 analyses the effects of the past, current and emerging information and software technologies on the individual and society	Semester 2 Progressive Assessment classwork, homework, unit quizzes.	20%	Ongoing
4	5.1.1 selects and justifies the application of appropriate software programs to a range of task 5.2.1 describes and applies problem-solving processes when creating solutions 5.2.2 designs, produces and evaluates appropriate solutions to a range of challenging problems 5.2.3 critically analyses decision-making processes in a range of information and software solutions 5.5.1 applies collaborative work practices to complete tasks 5.5.2 communicates ideas, processes and solutions to a targeted audience	Semester 2 Major Project 2	30%	Term 4 Week 3

Year 10 Mathematics Stage 5.1

Task	Outcomes	Task Detail	Weighting	Date Due
	Ongoing Topic Tests	S1 & S2	20%	Ongoing S1 & S2
1	MA5.1-10MG applies trigonometry, given diagrams, to solve problems, including problems involving angles of elevation and depression MA5.1-11MG describes and applies the properties of similar figures and scale drawings	Research Task 1	15%	Term 1 Week 7
2	MA5.1-6NA determines the midpoint, gradient and length of an interval, and graphs linear relationships MA5.1-7NA graphs simple non-linear relationships MA5.1-8MG calculates the areas of composite shapes, and the surface areas of rectangular and triangular prisms MA4-14MG uses formulas to calculate the volumes of prisms and cylinders, and converts between units of volume MA5.1-9MG interprets very small and very large units of measurement, uses scientific notation, and rounds to significant figures	Assessment Task 2	20%	Term 2 Week 4
3	MA4-6NA solves financial problems involving purchasing goods MA4-7NA operates with ratios and rates, and explores their graphical representation MA4-8NA generalises number properties to operate with algebraic expressions MA4-10NA uses algebraic techniques to solve simple linear and quadratic equations MA5.1-5NA operates with algebraic expressions involving positive-integer and zero indices, and establishes the meaning of negative indices for numerical bases	Assessment Task 3	20%	Term 3 Week 3
	Stage 5 outcomes	RoSA check-in assessment		Term 3 Week 8
4	MA5.1-12SP uses statistical displays to compare sets of data, and evaluates statistical claims made in the media MA5.1-13SP calculates relative frequencies to estimate probabilities of simple and compound events	Research Task 4	25%	Term 4 Week 4

Notes

- Half-Yearly Report will comprise tasks 1 and 2
- Yearly Report will comprise tasks 1, 2, 3, and 4
- Specific testing outcomes are subject to change throughout the year. Students are to be advised in writing, 2 weeks in advance of each common test by their classroom teacher

Year 10 Mathematics Stage 5.2

Task	Outcomes	Task detail	Weighting	Date Due
	Ongoing Topic Tests	S1 & S2	20%	Ongoing S1 & S2
1	MA5.2-11MG calculates the surface areas of right prisms, cylinders and related composite solids MA5.2-12MG applies formulas to calculate the volumes of composite solids composed of right prisms and cylinders MA5.2-14MG calculates the angle sum of any polygon and uses minimum conditions to prove triangles are congruent or similar MA5.2-13MG applies trigonometry to solve problems, including problems involving bearings	Research Task 1	15%	Term 1 Week 7
2	MA5.2-7NA applies index laws to operate with algebraic expressions involving integer indices MA5.2-8NA solves linear and simple quadratic equations, linear inequalities and linear simultaneous equations, using analytical and graphical techniques MA5.2-9NA uses the gradient-intercept form to interpret and graph linear relationships MA5.2-10NA connects algebraic and graphical representations of simple non-linear relationships	*Assessment Task 2	20%	Term 2 Week 4
3	MA5.1-4NA solves financial problems involving earning, spending and investing money MA5.2-4NA solves financial problems involving compound interest MA5.2-5NA recognises direct and indirect proportion, and solves problems involving direct proportion MA5.2-6NA simplifies algebraic fractions, and expands and factorises quadratic expressions	Assessment Task 3	20%	Term 3 Week 3
	Stage 5 outcomes	RoSA check-in assessment		Term 3 Week 8
4	All the above outcomes and.... MA5.2-15SP uses quartiles and box plots to compare sets of data, and evaluates sources of data MA5.2-16SP investigates relationships between two statistical variables, including their relationship over time MA5.2-17SP describes and calculates probabilities in multi-step chance experiments	*Assessment Task 4	25%	Term 4 Week 4

Notes

- Half-Yearly Report will comprise tasks 1 and 2
 - Yearly Report will comprise tasks 1, 2, 3, and 4
 - Specific testing outcomes are subject to change throughout the year. Students are to be advised in writing, 2 weeks in advance of each common test by their classroom teacher
- *contains extension components

Year 10 Mathematics Stage 5.3

Task	Outcomes	Task Detail	Weighting	Date Due
	Ongoing Topic Tests	S1 & S2	20%	Ongoing S1 & S2
1	MA5.2-4NA solves financial problems involving compound interest MA5.3-4NA draws, interprets and analyses graphs of physical phenomena MA5.3-5NA selects and applies appropriate algebraic techniques to operate with algebraic expressions MA5.3-6NA performs operations with surds and indices MA5.2-8NA solves linear and simple quadratic equations, linear inequalities and linear simultaneous equations, using analytical and graphical techniques MA5.3-7NA solves complex linear, quadratic, simple cubic and simultaneous equations, and rearranges literal equations	Research Task 1	15%	Term 1 Week 7
2	MA5.3-16MG proves triangles are similar, and uses formal geometric reasoning to establish properties of triangles and quadrilaterals MA5.3-17MG applies deductive reasoning to prove circle theorems and to solve related problems MA5.3-18SP uses standard deviation to analyse data MA5.3-19SP investigates the relationship between numerical variables using lines of best fit, and explores how data is used to inform decision-making processes	*Assessment Task 2	20%	Term 2 Week 4
3	MA5.3-11NA uses the definition of a logarithm to establish and apply the laws of logarithms MA5.3-13MG applies formulas to find the surface areas of right pyramids, right cones, spheres and related composite solids MA5.3-14MG applies formulas to find the volumes of right pyramids, right cones, spheres and related composite solids MA5.3-15MG applies Pythagoras' theorem, trigonometric relationships, the sine rule, the cosine rule and the area rule to solve problems, including problems involving three dimensions	Assessment Task 3	20%	Term 3 Week 3
	Stage 5 outcomes	RoSA check-in assessment		Term 3 Week 8
4	All of the above outcomes and..... MA5.3-8NA uses formulas to find midpoint, gradient and distance on the Cartesian plane, and applies standard forms of the equation of a straight line MA5.3-9NA sketches and interprets a variety of non-linear relationships MA5.3-10NA recognises, describes and sketches polynomials, and applies the factor and remainder theorems to solve problems MA5.3-12NA uses function notation to describe and sketch functions	*Assessment Task 4	25%	Term 4 Week 4

Notes

- Half-Yearly Report will comprise tasks 1 and 2
 - Yearly Report will comprise tasks 1, 2, 3, and 4
 - Specific testing outcomes are subject to change throughout the year. Students are to be advised in writing, 2 weeks in advance of each common test by their classroom teacher
- *Contains extension components

Year 10 Music

Task	Outcomes	Task Detail	Weighting	Date Due
1	Popular Music <ul style="list-style-type: none"> Performs music selected for study, demonstrating solo performance skills with appropriate stylistic features 	Solo Performance	15%	Term 1 Week 9
2	Twentieth Century Styles: The Shock of the New <ul style="list-style-type: none"> Aurally identifies the use of concepts reflecting the contexts studied Demonstrates an understanding of and discriminates between stylistic features studied 	Written Test: Aural and Musicology skills	20%	Term 2 Week 4
3	Music & Technology <ul style="list-style-type: none"> Personal Project Focus: Examines perspectives using the concepts of music Notates and records own composition using notation, relevant to the context chosen and concepts featured 	Viva voce	20%	Term 3 Week 5
4		Composition	30%	Term 3 Week 9
5	Music for Small Ensembles <ul style="list-style-type: none"> Demonstrates ensemble awareness & skills in a prepared work from repertoire selected for study 	Ensemble Performance	15%	Term 4 Week 4

Year 10 Music Extension

Task	Outcomes	Task Detail	Weighting	Date Due
1	<p>Music for Large Ensembles- The Concerto and The Symphony</p> <ul style="list-style-type: none"> • Demonstrates an understanding of musical concepts through aural discrimination & notation in the music selected for study • Develops musical literacy, more advanced score reading & analytical skills 	In Class Written Essay based on research, score and analysis	25%	Term 1 Week 10
2	<p>Twentieth Century Music: The Avante Garde in Art Music</p> <ul style="list-style-type: none"> • Demonstrates an understanding of and discriminates between stylistic features studied • Notates own composition using notation relevant to the context chosen • Documents composition process through a folio of listening, research and composition 	Individual composition- Score (notation) Recording/live performance	25%	Term 2 Week 9
3	<p>Music for Small Ensembles</p> <ul style="list-style-type: none"> • Performs music selected for study, demonstrating ensemble performance skills with appropriate stylistic features • Demonstrates an understanding of and discriminates between stylistic features studied 	Elective Project	25%	Term 3 Week 5
4	<p>An Instrument and its Repertoire</p> <ul style="list-style-type: none"> • Performs music selected for study, demonstrating solo performance skills with appropriate stylistic features studied • Demonstrates development of aural discrimination 	Solo Performance Sight singing	20% 5%	Term 4 Weeks 2-4 Week 4

Year 10 PDHPE

Outcomes	Task	Task Details	Weighting	Date Due
<p>PD5-2 researches and appraises the effectiveness of health information and support services available in the community</p> <p>PD5-3 analyses factors and strategies that enhance inclusivity, equality and respectful relationships</p> <p>PD5-4 adapts and improvises movement skills to perform creative movement across a range of dynamic physical activity contexts</p>	1	Social Justice Research task	35%	Term 1 Week 9
<p>PD5-5 appraises and justifies choices of actions when solving complex movement challenges</p> <p>PD5-6 critiques contextual factors, attitudes and behaviours to effectively promote health, safety and wellbeing and participation in physical activity</p> <p>PD5-7 plans, implements and critiques strategies to promote health, safety and wellbeing and participation in physical activity in their communities</p>	2	Bstreetsmart 'Bfilmed' competition	35%	Term 2 Week 8
<p>PD5-8 designs, implements and evaluates personalised plans to enhance health and participation in a lifetime of physical activity</p> <p>PD5-10 critiques their ability to enact interpersonal skills to build and maintain respectful and inclusive relationships in a variety of groups or contexts</p>	3	Creative Movements Skipping assessment	30%	Term 4 Week 3

Production (Technical)

Task	Outcomes	Task Detail	Weighting	Date Due
1	<ul style="list-style-type: none"> • 2.1 Demonstrates knowledge and understanding of the fundamentals of stage lighting operation and design. • 2.2 Implements knowledge of stage lighting operation to achieve a design concept. • 2.3 Explores and manipulates the elements of lighting the elements of lighting design using computer design programs. • 4.3 Communicates an understanding of the components of theatrical production in written and oral form. 	LX Free	25%	Term 1 Weeks 8/9
2	<ul style="list-style-type: none"> • 3.1 Demonstrates knowledge and understanding of the fundamentals of audio engineering and equipment operation. • 3.2 Applies knowledge of sound systems to audio design • 3.3 Explores and manipulates the elements of audio design using computer recording and editing programs. • 5.1 Understands, values and demonstrates the commitment, collaboration and self-discipline required of those working in theatrical production. 	Live Mix and Garage Band	30%	Term 2 Week 7
3	<ul style="list-style-type: none"> • 2.3 Manipulates and explores the elements of lighting design using computer design programs. • 3.3 Manipulates and explores the elements of audio design and computer recording and editing programs. • 4.1 Understands and prioritises the components of production management. • 4.3 Communicates their understanding of the production processes and techniques in written and oral form. 	Design and written task	45%	Term 4 Week 2

Year 10 Science

Task	Outcomes	Task Detail	Weighting	Date Due
1	<p>SC5-17CW discusses the importance of chemical reactions in the production of a range of substances, and the influence of society on the development of new materials</p> <p>SC5-4WS develops questions or hypotheses to be investigated scientifically</p> <p>SC5-5WS produces a plan to investigate identified questions, hypotheses or problems, individually and collaboratively</p> <p>SC5-7WS processes, analyses and evaluates data from first-hand investigations and secondary sources to develop evidence-based arguments and conclusions</p> <p>SC5-8WS applies scientific understanding and critical thinking skills to suggest possible solutions to identified problems</p> <p>SC5-9WS presents science ideas and evidence for a particular purpose and to a specific audience, using appropriate scientific language, conventions and representations</p>	<p style="text-align: center;">Problem Solving Assessment</p> <p>Students will be completing a problem-based task which will require them to apply their skills from working scientifically and knowledge & understanding from the topic Mystery Solutions</p>	25%	Term 1 Week 10
2	<p>SC5-16CW explains how models, theories and laws about matter have been refined as new scientific evidence becomes available</p> <p>SC5-17CW discusses the importance of chemical reactions in the production of a range of substances, and the influence of society on the development of new materials</p> <p>SC5-10PW applies models, theories and laws to explain situations involving energy, force and motion</p> <p>SC5-11PW explains how scientific understanding about energy conservation, transfers and transformations is applied in systems</p>	<p style="text-align: center;">Assessment task</p> <p>Written assessment of topics covered in Semester 1.</p>	20%	Term 2 Week 4

Year 10 Science (continued)

Task	Outcomes	Task Detail	Weighting	Date Due
3	<p>SC5-4WS develops questions or hypotheses to be investigated scientifically</p> <p>SC5-5WS produces a plan to investigate identified questions, hypotheses or problems, individually and collaboratively</p> <p>SC5-6WS undertakes first-hand investigations to collect valid and reliable data and information, individually and collaboratively</p> <p>SC5-7WS processes, analyses and evaluates data from first-hand investigations and secondary sources to develop evidence-based arguments and conclusions</p> <p>SC5-8WS applies scientific understanding and critical thinking skills to suggest possible solutions to identified problems</p> <p>SC5-9WS presents science ideas and evidence for a particular purpose and to a specific audience, using appropriate scientific language, conventions and representations</p>	<p>Student Research Project</p> <p>The student research project is a mandatory component of Stage 5 Science. The student research project promotes student inquiry, independent research and links the skills of working scientifically to the context of student's interests.</p>	25%	Term 3 Week 4
4	<p>Working Scientifically: SC5-4WS, SC5-5WS, SC5-6WS, SC5-7WS, SC5-8WS, SC5-9WS (see Task 3 for descriptions)</p> <p>Knowledge and Understanding: SC5-10PW applies models, theories and laws to explain situations involving energy, force and motion</p> <p>SC5-11PW explains how scientific understanding about energy conservation, transfers and transformations is applied in systems</p> <p>SC5-12ES describes changing ideas about the structure of the Earth and the universe to illustrate how models, theories and laws are refined over time by the scientific community</p> <p>SC5-15LW explains how biological understanding has advanced through scientific discoveries, technological developments and the needs of society</p> <p>SC5-16CW explains how models, theories and laws about matter have been refined as new scientific evidence becomes available</p> <p>SC5-17CW discusses the importance of chemical reactions in the production of a range of substances, and the influence of society on the development of new materials</p>	<p>Assessment task</p> <p>Written assessment of all topics covered in Year 10.</p>	30%	Term 4 Week 2

Year 10 Visual Arts

Task	Outcomes	Task Detail	Weighting	Due Date
1	Art Criticism and Art History 5.7, 5.8, 5.9, 5.10	Theory task Written assessment	15%	Term 1 Week 9
2	Artmaking 5.1, 5.2, 5.3, 5.4, 5.5, 5.6	Body of Work (BOW) Students submit Body of Work and documentation of processes in VAPD	30%	Term 2 Week 4
3	Art Criticism and Art History 5.7, 5.8, 5.9, 5.10	Theory task Written assessment	25%	Term 3 Week 5
4	Artmaking 5.1, 5.2, 5.3, 5.4, 5.5, 5.6	Body of Work (BOW) Students submit Body of Work and documentation of processes in VAPD	30%	Term 4 Week 4

Year 10 2022

Assessment Booklet

The Principal
Newtown High School of the Performing Arts
P O Box 785
NEWTOWN NSW 2042

Dear Ms Roberts

I have received the Year 10 Assessment Booklet.

Student's Name: (Please print)

Student's Signature:

Date:

I have sighted the Year 10 Assessment Booklet and the Calendar of Tasks.

Parent/Carer's Signature:

Date:

Please sign and return this page to:

Mr A Lavrut or Ms A di Camillo (Year 10 Student Advisers) or Deputy Principal Ms N Rajwar
